

Birdie QA report

Hire and pay lifecycle

Date: 18 Aug 2026
App: <http://localhost:3000> (Vite) · live Birdie database
Paystack: Test · **Birdie fee:** 3.5%
How we tested: browser screenshots of public pages + database check of money math

Verdict: the public hire path and the money math work. Signed-in dashboards were not clicked in this pass (no passwords in the repo; new sign-up needs email confirmation).

Results

STEP	RESULT
Home, find people, open a profile	Pass
Hire wizard starts and asks for sign-in	Pass
/app/hires without a session sends you to login	Pass (security)
Register: family vs professional, admin is invite-only	Pass
Contact page shows support email and ₦10,000 meeting fee	Pass
Job done + pay professional on hire BRD-260815-0002	Pass (database)
3.5% Birdie fee (₦2,450 of ₦70,000)	Pass
Professional ready to withdraw ₦67,550	Pass
Withdrawal → Paystack transfer to a bank	Not run — no withdrawal requested, and no login
Full new hire with test card in this session	Blocked — need a signed-in family

Step 1 — Family lands on Birdie

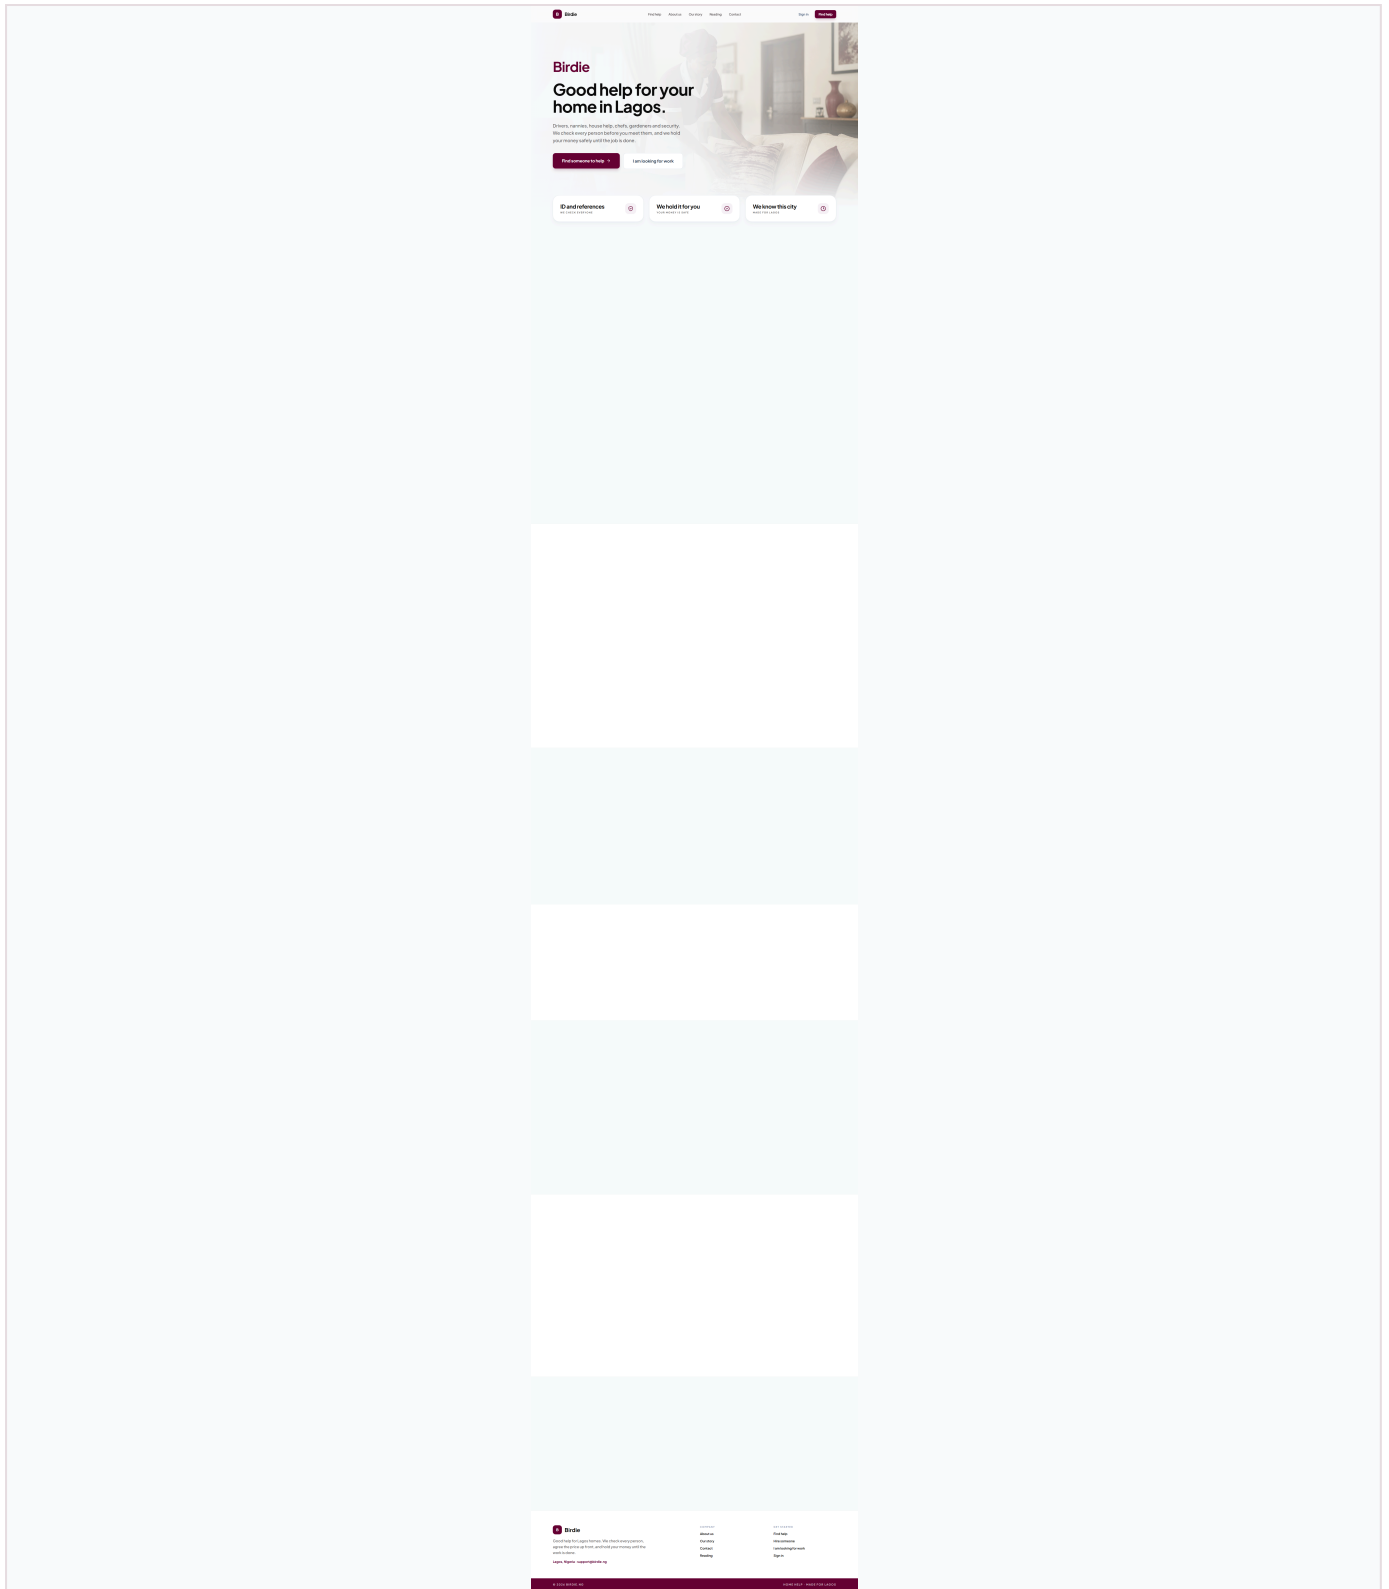

Figure 1. Home page

Home loads. The family is told Birdie checks people and holds money until the job is done. **Find someone to help** is the main action.

Opinion: Keep this copy. Do not mention bank names or Paystack on the home hero.

Step 2 — Family picks a person

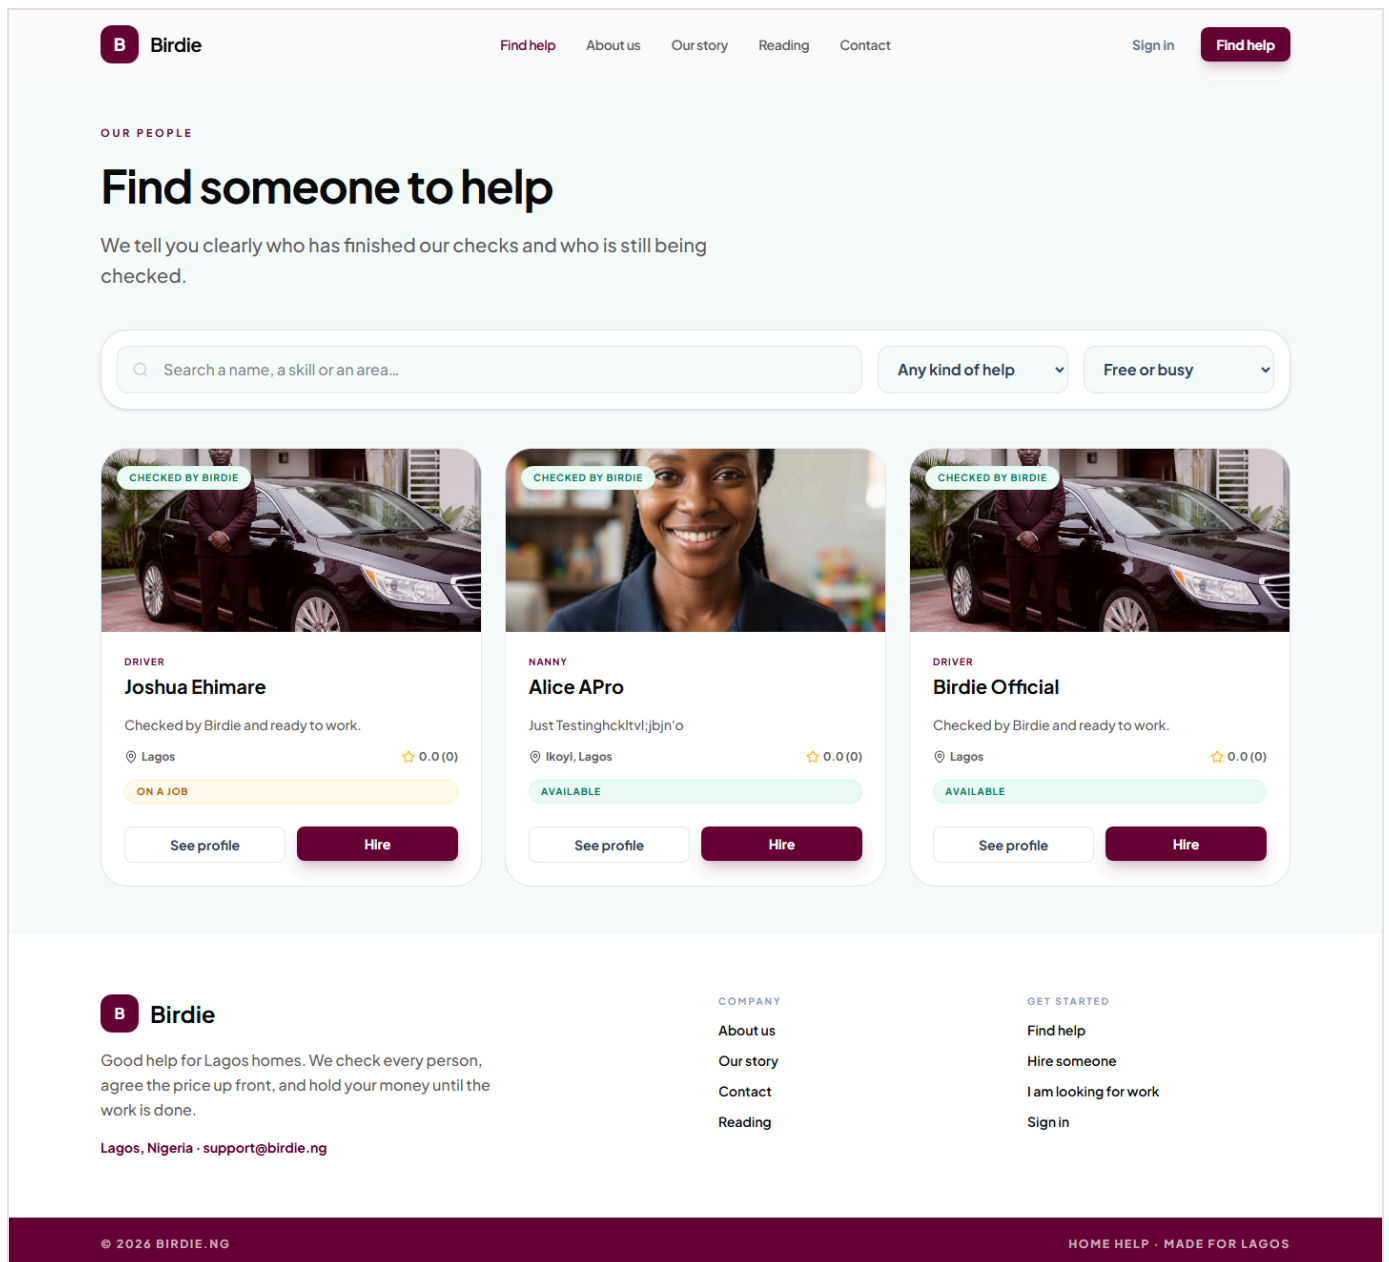

Figure 2. Find someone to help

Three checked people show. Hire buttons are visible.

Issues (data, not code):

- Alice's bio is leftover test typing. Clean that before live.
- Joshua is on a job (old test hire BRD-260811-0001 still active with ₦70,000 held). Finish or refund that hire so he is free again.
- Ratings are 0.0 because no published reviews yet. That is expected.

Step 3 — Family reads the profile

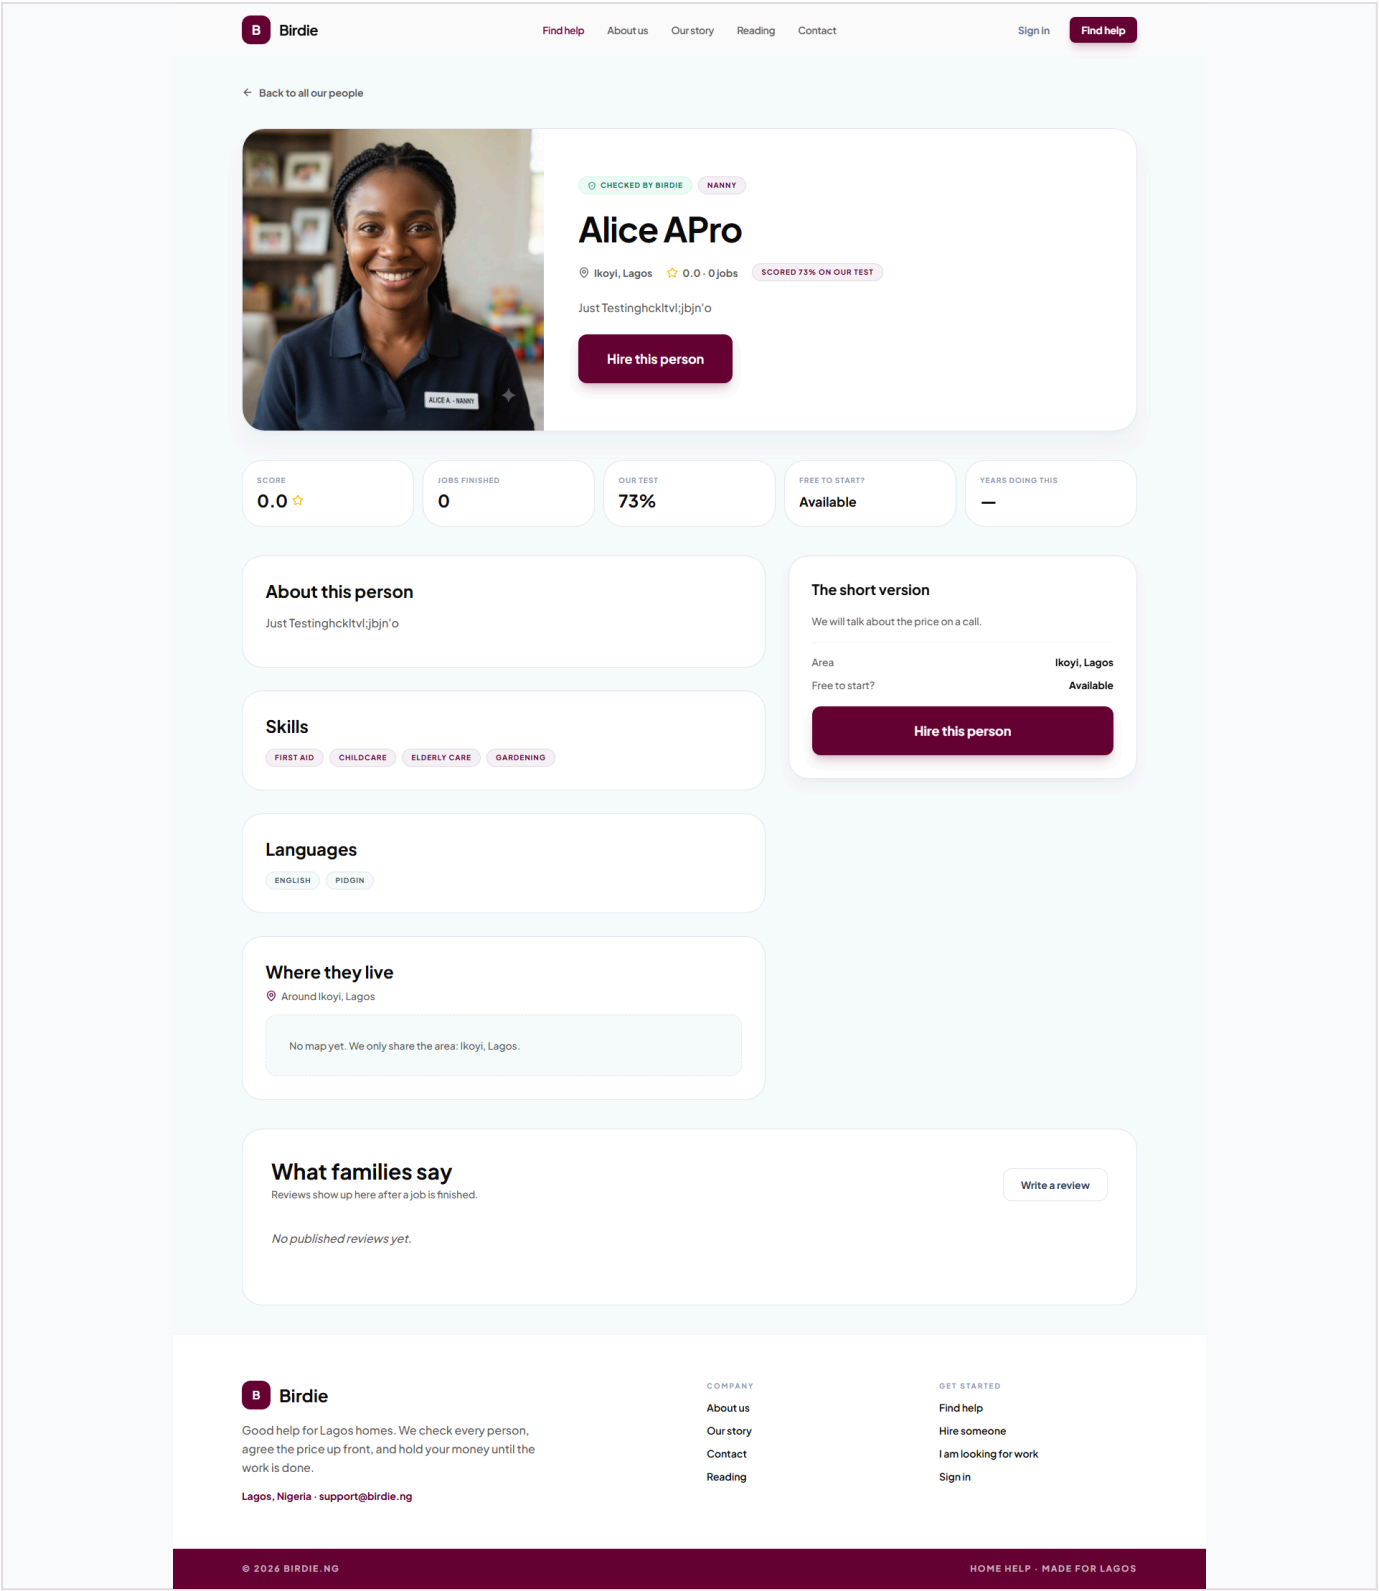

Figure 3. Alice APro public profile

Alice is checked, scored 73% on the test, available in Ikoyi. **Hire this person** is clear. Reviews are empty until a job is finished.

Opinion: Hide or rewrite dummy bios before families see the live site.

Step 4 — Hire wizard, then sign-in wall

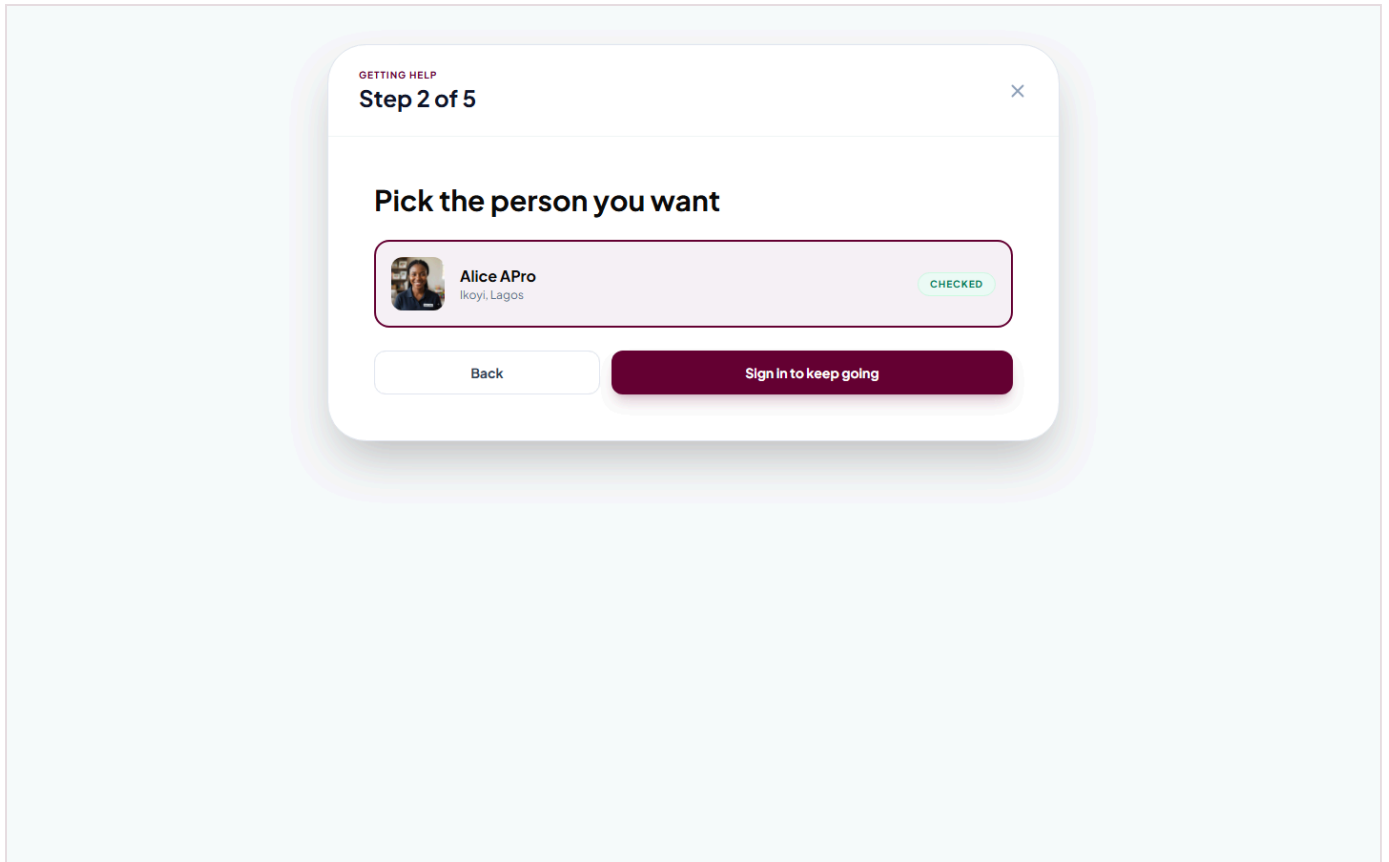

Figure 4. Hire wizard — pick Alice

Step 2 of 5: pick Alice. A guest cannot send a request. Button: **Sign in to keep going.**

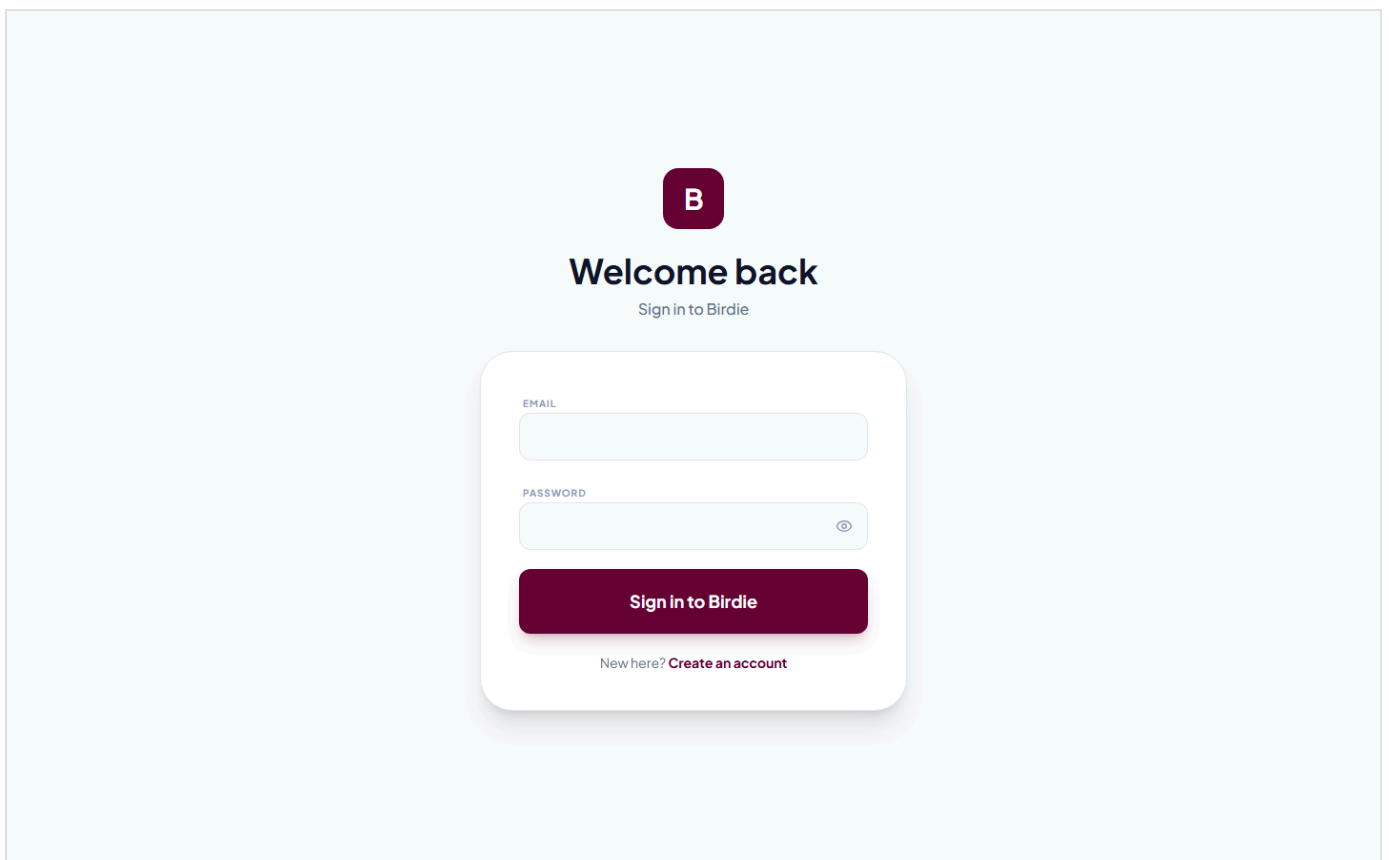

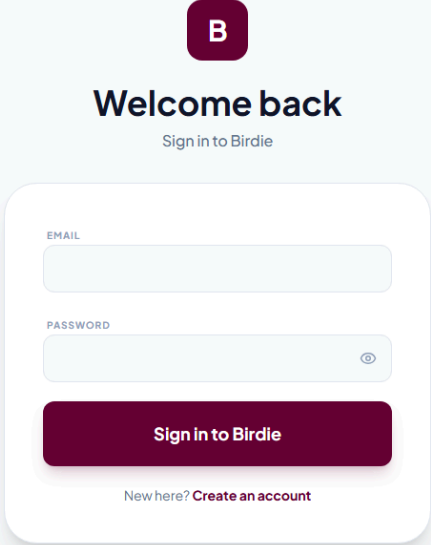

Figure 5. Hire wizard sends a guest to sign in

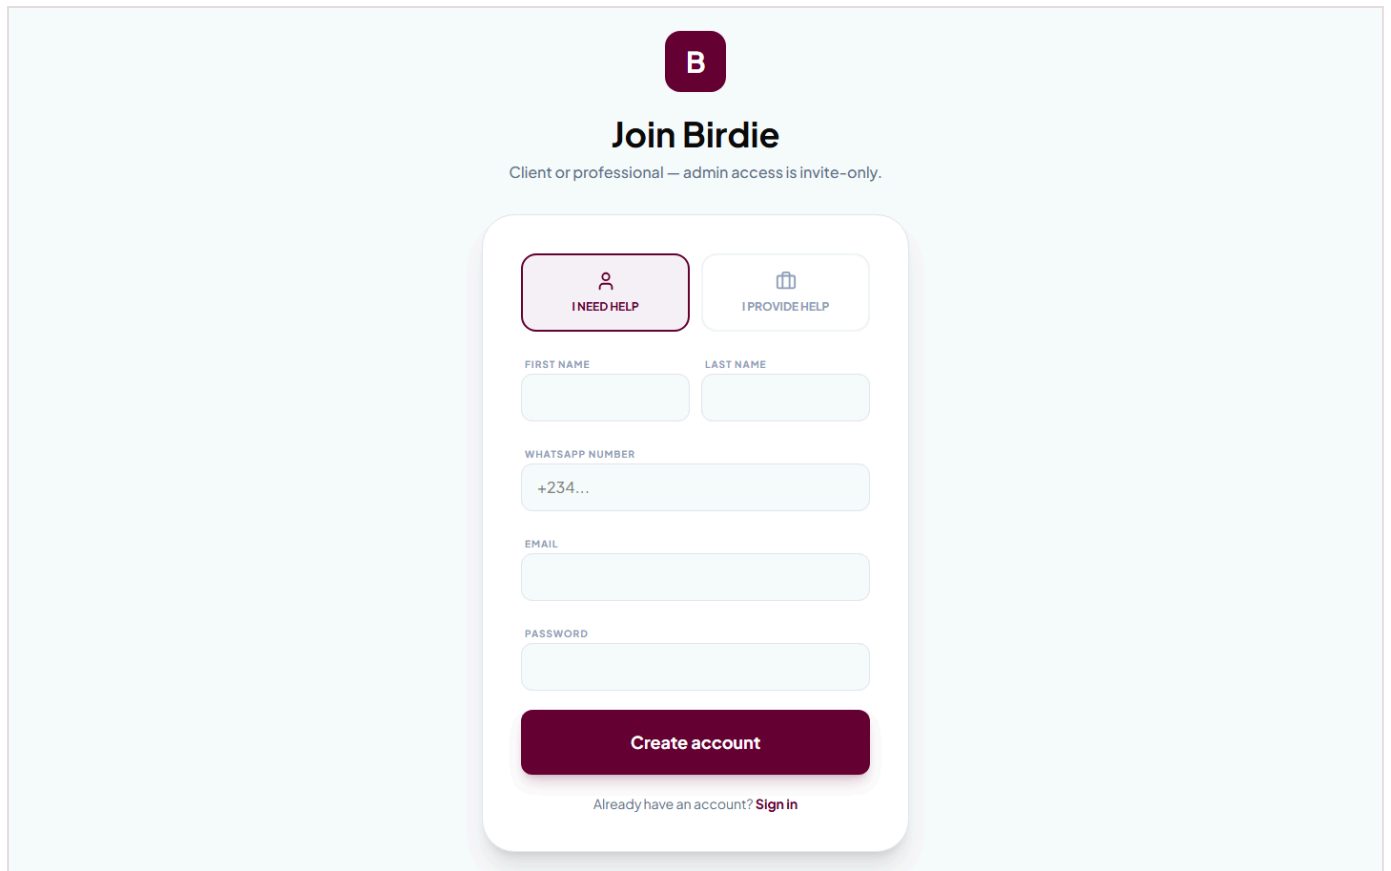

Opinion: This is the right security behaviour. Do not let guests create unpaid hires.

Step 5 — Sign in / create account

The image shows a sign-in form for 'Birdie' centered on a light blue background. At the top is a dark red square logo with a white letter 'B'. Below the logo, the text 'Welcome back' is displayed in a bold, dark font, followed by 'Sign in to Birdie' in a smaller, lighter font. The form itself is a white rounded rectangle with a subtle shadow. It contains two input fields: 'EMAIL' and 'PASSWORD'. The 'PASSWORD' field has a small eye icon to its right. Below the input fields is a dark red button with the text 'Sign in to Birdie' in white. At the bottom of the form, there is a link that says 'New here? Create an account'.

Figure 6. Sign in

The image shows a registration form for 'Join Birdie'. At the top, there is a dark red square with a white letter 'B'. Below it, the text 'Join Birdie' is centered in a bold, black font. Underneath that, a smaller line of text reads 'Client or professional — admin access is invite-only.' The form itself is a white rounded rectangle with a subtle shadow. It features two buttons at the top: 'I NEED HELP' with a person icon and 'I PROVIDE HELP' with a briefcase icon. Below these are input fields for 'FIRST NAME' and 'LAST NAME'. Then there is a 'WHATSAPP NUMBER' field with a '+234...' placeholder. This is followed by 'EMAIL' and 'PASSWORD' fields. At the bottom of the form is a large dark red button labeled 'Create account'. Below this button, there is a link that says 'Already have an account? Sign in'.

B

Join Birdie

Client or professional — admin access is invite-only.

I NEED HELP **I PROVIDE HELP**

FIRST NAME LAST NAME

WHATSAPP NUMBER

+234...

Already have an account? [Sign in](#)

Figure 7. Create an account

Register offers **I need help** or **I provide help**. Copy says admin is invite-only.

Blocked here: a throwaway family was not created. Email confirmation is on, so a new account would not sign in without the inbox.

To finish this step: sign in as the family, send a hire, pay the meeting fee with test card **4084 0840 8408 4081**.

Step 6 — Contact

HOME HELP · MADE FOR LAGOS

Figure 8. Contact page

Support email support@birdie.ng and meeting fee ₦10,000 show. FAQ includes how to pay and how Birdie keeps money safe.

Step 7 — App without login

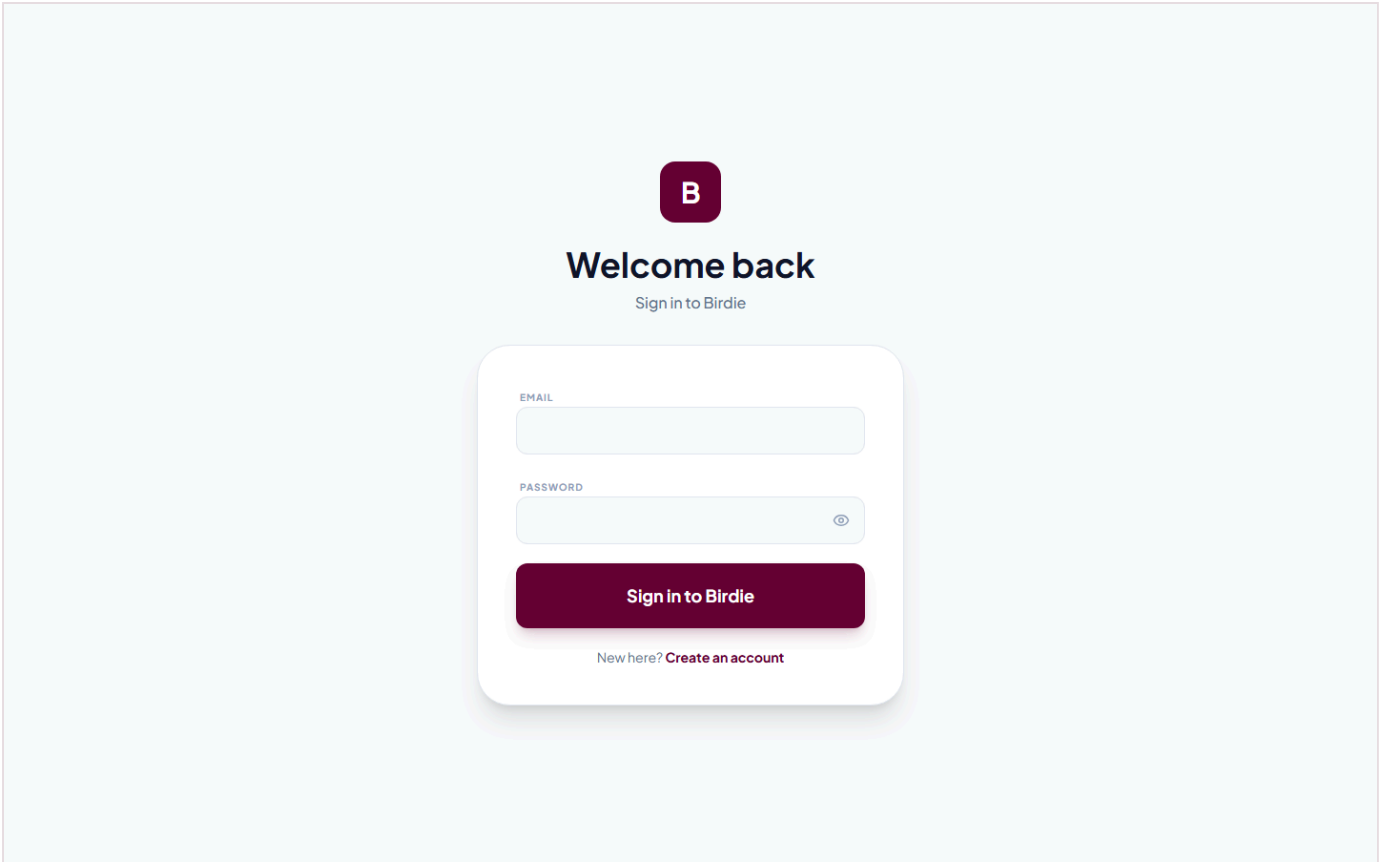

Figure 9. /app/hires while logged out

Opening /app/hires while logged out sends you to login. Staff and family money pages are not public.

Step 8 — Money logic (already completed on this database)

Hire **BRD-260815-0002** (Client Demo → Alice APro, ₦70,000) is now **settled / released**.

WHAT HAPPENED	AMOUNT	REFERENCE ENDING
Family paid, Birdie held it	₦70,000	escrow credit
Job marked done — out of hold	₦70,000	_hold_out
Job marked done — waiting	₦70,000	_waiting_in
Paid out of waiting	₦70,000	_waiting_out
Birdie fee 3.5%	₦2,450	_birdie_fee
Ready for Alice	₦67,550	_ready

Alice’s wallet now: held 0, waiting 0, ready **₦67,550**.

Still open: no withdrawal has been requested. Alice should ask for ₦67,550, then staff approve on Money. In test mode, check Paystack Transfers — no real bank credit.

Security notes from this pass

- Hire submit and /app pages require a session.
- Public register cannot create admin.
- Paystack secrets are not in the browser. Card checkout is started on the server.
- This was a lifecycle QA, not a full penetration test.

What to do next

1. Sign in as family, staff, and Alice (three browsers).
2. Finish one new hire with the test card (meeting fee + bill).
3. Confirm Held equals the bill, not double.
4. Staff: start job → job done → pay professional. Ready = bill minus 3.5%.
5. Alice: request withdrawal → staff approve.
6. Clean Alice's bio and close Joshua's leftover active hire.
